

IMAGINE • CREATE • SUSTAIN

## A&D LANDSCAPING

A & D Landscaping is a professional landscape company that has provided both residential and commercial clients with quality landscape services since 1994. We have established a reputation for superior landscaping from design through completion. Our reputation is built on a foundation of craftsmanship, quality materials, and attention to detail. We are committed to a strong work ethic and current, professional training. We believe we give those we serve the highest value through our dedication to quality and service.

# DESIGN

Developing a good plan is the first step toward creating a beautiful and unique landscape. The members of A&D Landscaping's design team have degrees and expertise in ornamental horticulture and landscape architecture. They will work with you to create the landscape elements you desire and help your vision of a new or renovated landscape become a reality. The team will assist you with a design that is aesthetic, comfortable and functional.

## RESIDENTIAL

Our goal at A&D Landscaping is to compliment and beautify your home and to create a retreat for you in your own backyard, a place where you can escape for relaxation and renewal. We will personally tailor your landscape to reflect you and your individual needs. We encourage you to begin your dream landscape by meeting with our design team and estimators. They will provide you with a clear vision and peace of mind about your project from start to finish.

## COMMERCIAL

A&D Landscaping is dedicated to providing professional, high quality landscape services for commercial projects. We are experienced and equipped for commercial work on both large and small sites. We specialize in bringing quality and professional work to all our projects and are committed to working with other subcontractors, completing work on schedule, and following through with details. We are confident that your commercial landscape project will exceed your expectations and enhance your image.

## EARTHWORK

A superior landscape begins with professional earthwork that aesthetically sculpts the land. Our highly skilled equipment operators along with the right tools and machinery take care of earthwork needs effectively and efficiently. We have a full line of specialized earth-moving equipment to assist us with your landscaping.

A&D Landscaping provides the following services:

- Initial and finish grading and sculpting
- Shaping mound and berms
- Grading for storm water management
- Removal of poor soil, rocks and debris
- Breaking up of soil compaction
- Soil renovation and pre-seeding
- Installation of premium topsoil
- Final preparations for planting
- Utility trenching, auguring, and excavation

## HARDSCAPES

A&D Landscaping can help you create an outdoor environment that you really want to spend time in! Hardscapes that are well designed and installed by our ICPI and NCMA certified installers will provide years of enjoyment, add value and usability to your landscape, and define areas of recreation, relaxation, and entertainment. Our hardscapes team can provide you a lasting outdoor solution that is superior to other surfaces.

## OUTDOOR LIVING

Take your yard to the next level! A&D Landscaping can help you transform your outdoor living environment with a variety of beautiful custom outdoor amenities:

- Steps
- Walls
- Pillars
- Fire places
- Fire pits
- Barbecues
- Water features
- Outdoor Kitchens

# WATER FEATURES

Water features are one of A&D Landscaping's most versatile and creative strengths. They are a beautiful way to add excitement and value to your home. A water feature can be a stunning focal point or a relaxing retreat. Modern water features take many forms and can be low-maintenance if designed and installed properly. Whether it is a small fountain or a large, natural waterfall complete with stream or pond, we have the experience and expertise to make it happen.

(435) 755-9769

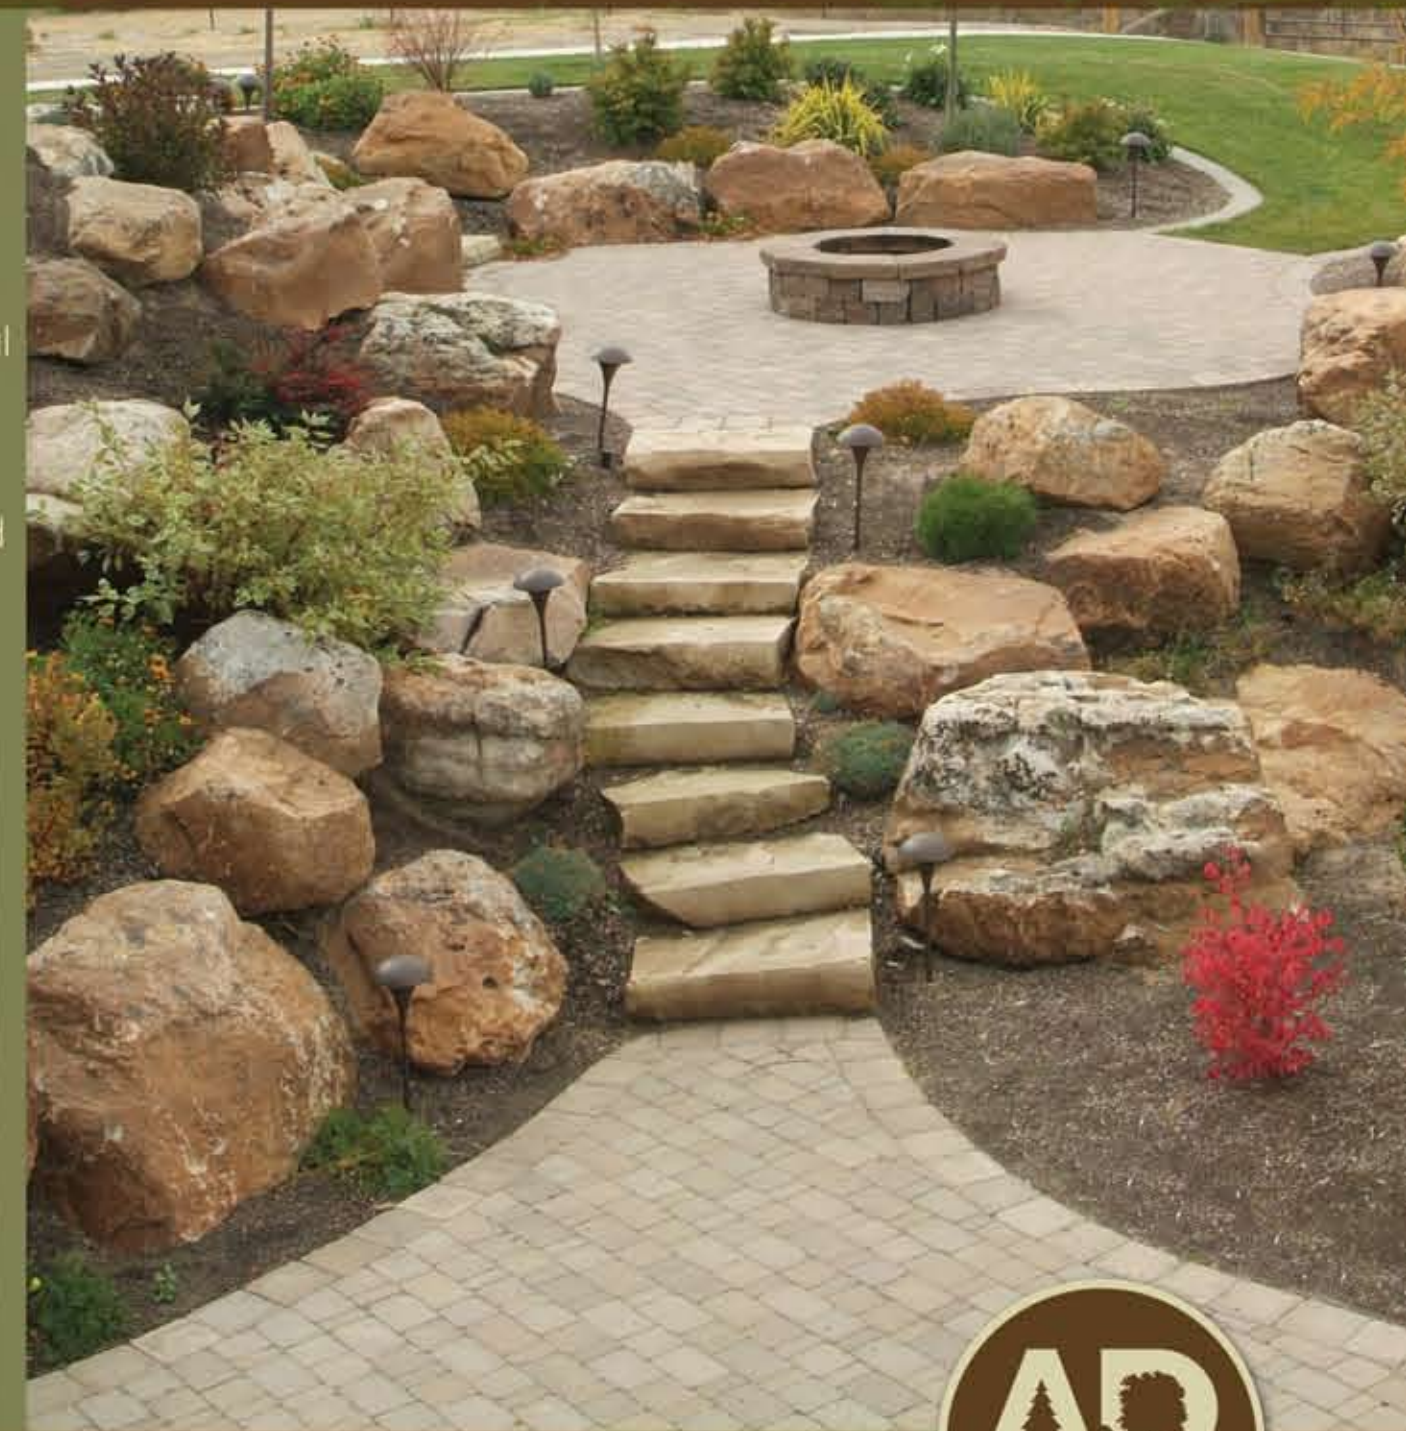

## BOULDERS

Boulders and natural stone add beauty, strength and depth to the landscape. Boulder and stone retaining walls and accents are appealing for their less formal feel. A&D Landscaping is especially skilled at stone placement. We create a natural feel in our retaining walls, boulder accents, water features, patios, steps and walkways. Our knowledge and experience guarantee that your project will stand out from the rest.

## OUR PLANT MATERIAL

We select our plant material from the most reputable growers in the Pacific Northwest and from top quality nurseries in Utah. This ensures the health and vigor of plants when they are ready to be planted in your landscape. The experts at A&D Landscaping choose attractive and unique plant varieties that thrive in our northern Utah climate, and our staff is educated in proper plant care. We provide a one-year plant warranty on plants we install.

## WHOLESALE

We want to serve you any way we can. A&D Landscaping can provide plant materials for homeowners who want to plant their own plants. Ideally we recommend that you work with our in-house design team to help you select the plants that will work best for you. Plants come directly from the growers and are top quality and appropriate for our climate and soil conditions. We can save you money and assure the highest quality.

## PLANT SELECTION

Plants give dimension and life to your yard. They provide shape, color and texture. Well-selected plants will enhance your landscape during all four seasons and will contribute a softer, more livable feel to your yard. Some important considerations for selecting plants are hardiness, soil pH, water requirements, size at maturity, and wildlife impact. We are happy to help you find the right plants that are suitable for your location and climate. We can guide you on where and how to plant them, and assist you if you choose to plant yourself. We also have expertise with selecting native and sustainable plants for our area.

## LIGHTING

A&D Landscaping can help you with your outdoor lighting needs. Incandescent or LED lighting is a great way to make your home stand out. Installing lighting in your yard is a relatively small investment for the benefits it provides. Low voltage landscape lighting is safe and inexpensive to operate and will enhance your yard during the peaceful evenings and nighttime hours. Lighting can also highlight unique features of your home, accent paths and steps, and contribute to the safety and security of your home.

## SPECIALTY WORK

We love the challenges that come to us as a design and build company. We have the ability to tailor your project to your specific needs. Whether in stone, pavers, wood, outdoor structures, even plant material, A&D landscaping is committed to your satisfaction and wants your project to reflect you and give you the long-term function and enjoyment you are looking for. We can also assist the "do-it-yourselfer" with any step along the way to a beautiful landscape.

## PATIOS & DECKS

Patios and decks can give your home that added entertaining space you have been looking for. They serve as a great connection between your home and your outdoors. A&D Landscaping can design a patio or deck to fit your home's style, size and budget. According to Remodeling Magazine the addition of a deck or patio is the most effective outdoor improvement for return on investment.

## SPRINKLER SYSTEMS

Proper irrigation is critical to the health and success of your landscape. Sprinkler systems can become headaches if they are not designed and installed properly. Quality, durable materials are essential for long-term life of your system. A&D Landscaping has the experience, training, and skills to design a sprinkler system that will water efficiently for the varied needs of different plants and areas of your yard. In the Intermountain West water is scarce and valuable. Allow us to design and install a low maintenance sprinkler system that will provide precise irrigation for your plants and save you time and money.

## MAINTENANCE

We provide a complete range of landscape services to keep your yard or commercial property looking beautiful all year.

- Mowing & trimming
- Spring & fall pruning
- Fertilization & soil amendments
- Weed & pest control
- Mulching & weeding
- Aeration & power raking
- Tree & shrub removal
- Annual & perennial planting
- Snow removal
- Christmas lights

## SPRINKLER REPAIR

When repairs or modifications to your sprinkler system are needed, we can remedy the problem correctly and quickly. We use the same high quality parts and materials as we do for new installations, often resulting in better operation than before. We have the experience and the right tools to trouble shoot and solve water pressure, water flow, and electrical problems. We can update your existing system to make it more efficient. We also offer winterizing and spring start-up services.
